

Dear Kindergarten Dove parents,

I am so excited our school year is about to begin! I am thrilled to have the opportunity to teach your child and be part of their growing experience.

I want to start by sharing that your child will be well loved in our Dove classroom. It is most important to me that all my students feel a part of our Dove community and know their presence is valued. I chose the "Dove" as our classroom name as we will be working to create a peaceful environment. We will also have lots of fun in our learning! I am really looking forward to getting to know your child. As I get to know their learning style and interests, I will be creating an environment that will help foster their growth emotionally, socially, physically and intellectually. It is so wonderful the Montessori Method gives me this opportunity to create an individual learning experience for your child.

I strongly believe parents and teachers share a partnership in helping develop the child. In that, I ask you please feel free to call me or email me to discuss thoughts that arise throughout the year you feel may help your child with their experience in my classroom. Together we will work to create a very positive experience for your child.

I have attached a volunteer sign-up sheet. There are many extra duties of the classroom I would love help with throughout the year. Starting in October we will be welcoming parent help in the classroom. I am also looking for a parent to be my classroom parent. This person would help coordinate the parent volunteers. If you are interested please send me a note, call or email me. I would so appreciate your help!

Here's to a great Kindergarten year!

Warm Regards,

Heather Kofstad

Office Hours Monday – Friday 3:30-5:00
